The Human Rights Council,

Reaffirming also the human right of everyone to education, which is enshrined in, inter alia, the Universal Declaration of Human Rights, the International Covenant on Economic, Social and Cultural Rights, the Convention on the Rights of the Child, the Convention on the Elimination of All Forms of Discrimination against Women, the International Convention on the Elimination of All Forms of Racial Discrimination, the International Convention on the Protection of the Rights of All Migrant Workers and Members of Their Families, the Convention on the Rights of Persons with Disabilities, the Convention against Discrimination in Education of the United Nations Educational, Scientific and Cultural Organization, and other relevant international instruments,

Bearing in mind the United Nations Declaration on Human Rights Education and Training and the World Programme for Human Rights Education,

* State not a member of the Human Rights Council.

Welcoming the progress made in achieving the Education for All goals and the related Millennium Development Goals, while recognizing the need to accelerate efforts to complete the unfinished agenda of the Millennium Development Goals,

Recalling the Incheon Declaration: Education 2030: Towards inclusive and equitable quality education and lifelong learning for all,¹ adopted at the World Education Forum 2015, held in Incheon, Republic of Korea,

Welcoming the adoption by the General Assembly of the 2030 Agenda for Sustainable Development,² which includes the goal of ensuring inclusive and equitable quality education and promoting lifelong learning opportunities for all,

Reiterating the commitment to strengthen the means of implementation in order to ensure the full realization of the Sustainable Development Goals, and in this context welcoming the adoption of the Education 2030 Framework For Action, which aims at mobilizing all countries and partners and provides guidance for achieving Sustainable Development Goal 4 on education, and its targets,

Strongly condemning the recurring attacks on students, teachers, schools and universities, which impair the realization of the right to education and cause severe and long-lasting harm to individuals and societies,

Recognizing the negative impact of conflict and crisis on the full realization of the right to education, and that a large proportion of the world's out-of-school population lives in conflict-affected areas, as noted in the Incheon Declaration,

Deeply concerned that, according to the United Nations Educational, Scientific and Cultural Organization, despite all efforts by Governments, civil society and the international community and the tremendous progress achieved between 2000 and 2015, the Education for All goals and the education-related Millennium Development Goals have not been achieved globally,

Reiterating the contribution that access to new information and communications technology, including the Internet, plays in facilitating the realization of the right to education and in promoting inclusive quality education,

Recalling the Paris Open Educational Resources Declaration adopted on 22 June 2012 at the World Open Educational Resources Congress of the United Nations Educational, Scientific and Cultural Organization,

Recognizing that factors such as the digital divide, disparities in access to the Internet and other information and communications technology, infrastructure constraints, marginalization and exclusion, as well as challenges relating to the quality and recognition of degrees and diplomas can limit the utilization of the full potential of information and communications technology in contributing to the realization of the right to education,

Welcoming the steps taken to implement the right to education, such as the enactment of appropriate legislation, adjudication by national courts, the development of national indicators and ensuring justiciability of this right,

Aware of the role that communications procedures can play to promote the justiciability of the right to education,
